

REQUEST FOR PROPOSAL

The Central Clemson Indoor Recreation Center is requesting sealed proposals from qualified firms or individuals for fitness equipment replacement.

Proposals are to be addressed and delivered to Pete Becker, Director, Central-Clemson Indoor Recreation Center, at 130 Commons Way, Central, SC 29630. Proposals should be received by Thursday, September 12th at 2pm at which time proposals will be opened and announced publicly. No proposal will be accepted after this time. The City of Clemson is not responsible for delays in the mail.

INTENT

The Central Clemson Indoor Recreation Center is jointly owned by the Town of Central and the City of Clemson, South Carolina. The facility is in the process of replacing and expanding upon strength building equipment. This may be a multiple award and will include staggered delivery times to allow for each firm to install their equipment.

INSTRUCTIONS TO PROPOSERS

All proposals shall be addressed to Pete Becker, Director, Central-Clemson Indoor Recreation Center at 130 Commons Way, Central, SC 29631. Proposals are due by September 12th at 2:00 pm. No telephone, electronic or facsimile proposals will be considered. Proposals received after the deadline will not be accepted. Package containing proposal should be clearly labeled on the outside of the envelope "Strength Training Equipment Proposal."

The award shall be made to the responsible proposer who is determined to be the most advantageous to the CCRC based on the evaluation factors set forth in this solicitation. Price, although a consideration, will not be the sole determining factor.

If you are submitting any information you consider to be proprietary, you must identify it as such and submit it in a way that can be separated from the submittal. Pricing information cannot be considered proprietary.

Unless specifically stated to the contrary, any manufacturer's names, brand names or catalog numbers used in the specifications of this RFP are for the purpose of describing and/or establishing the quality, design and performance required. Any such reference is not intended to limit or restrict any offer by any proposer and is included in order to advise the potential proposer of the requirements for the CCRC. Any offer which proposes like quality, design or performance will be considered.

Any person, firm, corporation or association submitting a proposal shall be deemed to have read and understood all the terms, conditions and requirements in the specifications/scope of work.

All formal inquiries or requests for significant or material clarification or interpretation, or notification to the CCRC for errors or omissions relating to this RFP must be directed, in writing to: Pete Becker at pbecker@cityofclemson.org.

The CCRC shall not reimburse any proposer the cost of responding to this RFP.

The City of Clemson has the right to reject all proposals or portions thereof in making the best decision for the City.

SPECIFICATIONS/SCOPE OF WORK

The successful Proposer shall provide the following:

- A proposal of the most up-to-date equipment that can meet today's trends and all ability levels, including but not limited to visual impairments and physical limitation. Proposers will provide solutions that would rival fitness trends seen in commercial gyms as well as other recreation centers.
- A plan to replace the existing exercise equipment and a plan to coordinate the physical trade-in of equipment and extraction. The bid for trade in should include and specifically state per piece value of each trade in unit, not a lump sum value.
- A plan to deliver and install the proposed equipment. Manufacturer, or designee, must have a technician on site during install who is appropriately certified by the manufacturer to install the equipment.
- Upon award, successful bidders must work with CCRC staff to provide a detailed layout and floor plan, confirming the fit of equipment to be provided.
- A representation of an efficient system that allows immediate reporting of issues, and includes easy-to-follow instructions for ordering parts and tracking shipments. Service response within 48 business hours of being notified of a problem is required.

The Central-Clemson Recreation Center realizes it must keep up with the latest trends in equipment; therefore, suggestions regarding equipment upgrades, or alternate ways to produce a more successful proposal outcome are welcome as part of your submittal.

PROPOSER QUALIFICATIONS

The Central-Clemson Recreation Center is soliciting proposals from firms, which are in the business of providing services as listed in this RFP. Your proposal shall include, at a minimum, the following information. Failure to include these items may be grounds for rejection of your proposal.

- The proposer shall present evidence that the firm or its officers have been engaged for at least the past five (5) years in providing services as listed in this RFP.
- The proposer shall provide resumes and qualifications of key personnel
- Proposers shall include a statement about previous violations of State, Federal or local guidelines for which the proposer was cited, and which became a matter of record.

- Proposer will provide a plan for preventative and ongoing equipment maintenance programs that result in good stewardship of resources
- Proposer must provide a single point of contact/account manager to whom we can escalate issues and make special requests

PRICING SCHEDULE

Proposer shall submit an itemized cost proposal to include all aspects of providing for the scope of work included in this RFP. The pricing proposal should include any of the items listed below that the proposer is able to provide, as well as additional unique pieces of equipment that the proposer feels will meet the needs and interests of the CCRC members.
